## 850 - T 3

### "Integral Brake System,,

PATENTED

This model coming from the line of the «**Formidable V7**» adds now the revolutionary braking system «**Integral Brake**» to the many qualities of fabulous **granturismo Guzzi** big bikes.

A light pressure on the control pedal actuates simultaneously one front braking disc and the rear braking disc whereas the power of same is duly balanced to avoid wheel blocking. The control lever on the handlebar actuates the twin braking disc on the front wheel.

Moto Guzzi therefore means safety, an ever increasing safety.

A motorcycle has now been born which is able to meet, without any reserve, all requirements of big capacity motorbike fans who are asking exceptional speed, excellent comfort, the highest stability by whichever riding and above all a safe braking.

The 850 T3 fits a compact twin cylinder V 90° engine equipped with a new camshaft and a special air filter able to recycle oil fogs coming from the engine crankcase.

Frame and suspensions are the same of Sport models which are generally considered as the best all over the world.

An excellent styling and reachness in finishing complete the features of this first class «italian» model.

  
**MOTO GUZZI**

The motorcycle shown herein has the following extra accessories: side bags, windscreen, leg protection, footboards.
